

Vivid™ E95 Education

Productivity. Expertise. Confidence.

GE is committed to your ultrasound education:

- Educated over 13,000 ultrasound professionals since 1998 at the GE Healthcare Institute
- Provides thousands of ultrasound continuing education (CE) credits annually

Let us help to optimize the functionality of your premium ultrasound system through our focused educational courses:

- ✓ Advanced image optimization techniques
- ✓ 4D volume acquisition/manipulation
- ✓ Advanced quantification tools
 - 2D strain
 - 4D mitral valve, aortic valve and right ventricular quantification
 - 4D auto left ventricular quantification (volumes, mass and 4D strain)

GE Ultrasound Academy at the GE Healthcare Institute
Educational excellence since 1998

Vivid Academy

- Advanced level, product-specific training
- 2.5-day course conducted at the GE Healthcare Institute
- Help enhance your system expertise while earning up to 17 CE credits
- All-inclusive pricing or tuition-only packages available

Vivid Academy onsite course

- Advanced training at **your** facility
- Customized training to meet individual and department needs
- Allows full department to participate in training
- 2-day course designed to help you realize the potential of your technology investment

Productivity

Use this supplemental training to help improve patient care using innovative education techniques to promote optimization and performance of system's advanced technologies.

Expertise

The Vivid E95 provides extraordinary and innovative quantification tools with excellent image quality to help improve diagnostic confidence. GE's education courses give you the tools to help enhance your expertise and your overall experience on your new ultrasound system.

Vivid E95 course topics

- Architecture of image quality; data acquisition and optimization
- Stress echocardiography
- Automated function imaging (AFI) – 2D speckle tracking strain
- 4D acquisition: how to acquire optimal 4D datasets
- 4D navigation: how to become a slicing and dicing expert
- 4D quantification
 - Mitral valve, right ventricular, and aortic valve quantification
 - Auto left ventricular quantification
- Vascular and shared service

Confidence

GE's advanced education courses give you the tools to help enhance your expertise and increase the clinical experience on your new ultrasound system.

- Practical concepts to help increase clinician skill levels
- Uninterrupted learning environment to help maximize educational experience
- Experienced credentialed clinical and product experts
- Networking opportunities with other experienced clinicians
